Vertebral bone tumor ablation and multiple procedure reimbursement

CPT® codes ¹	Description	Physician fees ²		Hospital outpatient	
		Payment in facility	Physician RVUs	Ambulatory payment classification (APC) ³	APC payment ³
Bone tumor ablation and vertebroplasty					
20982	Ablation therapy for reduction or eradication of one or more bone tumors (e.g., metastasis), including adjacent soft tissue when involved by tumor extension, percutaneous, including imaging guidance when performed; radiofrequency	\$603	18.23	5114	\$6,615
(+) 22510	Percutaneous vertebroplasty (bone biopsy included when performed), one vertebral body, unilateral or bilateral injection, inclusive of all imaging guidance; cervicothoracic				
20982	Ablation therapy for reduction or eradication of one or more bone tumors (e.g., metastasis), including adjacent soft tissue when involved by tumor extension, percutaneous, including imaging guidance when performed; radiofrequency	\$576	17.43	5114	\$6,615
(+) 22511	Percutaneous vertebroplasty (bone biopsy included when performed), one vertebral body, unilateral or bilateral injection, inclusive of all imaging guidance; lumbosacral				
Bone tumor ablation and vertebral augmentation					
20982	Ablation therapy for reduction or eradication of one or more bone tumors (e.g., metastasis), including adjacent soft tissue when involved by tumor extension, percutaneous, including imaging guidance when performed; radiofrequency	\$680	20.56	5115	\$13,048
(+) 22513	Percutaneous vertebral augmentation, including cavity creation (fracture reduction and bone biopsy included when performed) using mechanical device (e.g., vertebral augmentation), one vertebral body, unilateral or bilateral cannulation, inclusive of all imaging guidance; thoracic				
20982	Ablation therapy for reduction or eradication of one or more bone tumors (e.g., metastasis), including adjacent soft tissue when involved by tumor extension, percutaneous, including imaging guidance when performed; radiofrequency	\$646	19.55	5115	\$13,048
(+) 22514	Percutaneous vertebral augmentation, including cavity creation (fracture reduction and bone biopsy included when performed) using mechanical device (e.g., vertebral augmentation), one vertebral body, unilateral or bilateral cannulation, inclusive of all imaging guidance; lumbar				

Multiple procedures

Physician fees are subject to multiple procedure reduction when the above CPT code combinations are billed together. The higher-valued code will be reimbursed by Medicare at 100% of the rate, and subsequent codes will be reimbursed at 50%. Subsequent codes should be submitted with multiple procedure modifier -51.

Commercial payers typically apply a similar multiple procedure adjustment. Providers should verify payment provisions within individual commercial payer contracts.

Complexity adjustment

When two primary services are completed during the same outpatient session, the procedure qualifies for a complexity adjustment to the next APC payment level.

Vertebral bone tumor ablation and multiple procedure reimbursement (continued)

CPT® codes ¹	Description	Physician fees ²		Hospital outpatient	
		Payment in facility	Physician RVUs	Ambulatory payment classification (APC) ³	APC payment ³
Bone tumor ablation and vertebral augmentation (continued)

Notes

- “N/A” indicates that this concept does not apply or that Medicare has not developed fee schedules in those settings of care.
- When CPT code 22515 is reported in the hospital outpatient department with the primary procedure code 22513 or 22514, the complexity adjustment results in an adjusted APC assignment.

Interventional Spine

This document is intended solely for the use of healthcare professionals. Reimbursement, coding, coverage and payment information is provided for general information only and is not intended to provide coverage, coding, payment, medical treatment or legal advice. Stryker does not warrant, promise, guarantee or make any statement that the codes supplied in this guide are appropriate for any individual patient or that the use of this information will result in coverage or payment for treatment using any Stryker products or that any payment received will reimburse a provider's costs. The information is not intended to guarantee or increase payment by any payor. Laws, regulations and policies concerning reimbursement are complex, subject to change and updated regularly.

Stryker does not assume any responsibility for coding decisions, nor does it recommend codes for specific patients' procedures. The provider is solely responsible for reporting the codes that accurately describe the services furnished to a particular patient as well as the patient's medical condition. It is the provider's responsibility to determine and document that the services provided are medically necessary and that the site of service is appropriate. It is the health care provider's responsibility to report the patient diagnosis, the procedures performed and the products used, consistent with the specific payer's guidelines.

A physician must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. We do not dispense medical advice and recommend that physicians be trained in the use of any particular product before using it. The information presented is intended to demonstrate Stryker's products. A physician must always refer to the package insert, product label and/or instructions for use, including the instructions for cleaning and sterilization (if applicable), before using any of Stryker's products. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your representative if you have questions about the availability of Stryker's products in your area.

Stryker defers to specialty society guidelines, payer policies and guidelines, Medicare and the AMA regarding the submission of claims and the appropriate coding for procedures and products. Reimbursement has three components, coding, coverage and payment. All three must be aligned for providers to receive reimbursement for the services they furnish. Payment rates are calculated and represent the national unadjusted payment rates. Payment to individual providers will vary based on a number of variables, including geographic location.

This information in this document is accurate as of December 5, 2022, and all coding and reimbursement information is subject to change without notice. Please contact your Medicare Administrative Contractor or Private Payer for billing, payment and coverage information.
